101 Declaration

Declaration and Notice of Collection, Use, Disclosure and Treatment of Personal Information provided as part of your application to Ontario University(ies) Undergraduate Program(s) (101)

The Ontario Universities' Application Centre (OUAC) was created by the universities of Ontario through the Council of Ontario Universities (COU). The OUAC has been processing applications on behalf of universities in Ontario since 1971. To apply for admission to a university undergraduate program and/or a non-degree-granting program in Ontario, your application must be processed through the OUAC. The OUAC forwards your application information to the university(ies) of your choice. By applying through the OUAC, you agree that the university(ies) of your choice will obtain the personal information you have provided to the OUAC and that the OUAC will collect, use, disclose and otherwise manage your personal information as set out in this Declaration and Notice.

The personal information requested in this application is required by the OUAC and by the university(ies) for the purpose of your application and must be provided together with your application fee. Incomplete applications will not be considered. Universities may require additional personal information from you to complete your application. Universities may use and disclose your personal information for other purposes in accordance with their own admission and personal information policies and practices, including requirements for government enrollment reporting, which you must investigate yourself. For example, some programs at some universities (e.g., Nursing) may require you to provide them with information about whether and to what extent you have a prior criminal record. Universities also disclose personal information to regulatory authorities, law enforcement or other persons, when authorized or required to do so by law.

Academic data, including the Ontario Education Number (OEN), for all students expected to be eligible for university upon completion of the current secondary school academic session will be obtained by the OUAC from your school and/or board in order to facilitate the application process. Your current grade information will be obtained by the OUAC several times during the application cycle. All of your application data is made available to your guidance office and board officials in order to assist you with your university application. Of the individuals who have access, only a restricted number of school or board officials have the right to update your secondary school academic data and diploma information.

To enable you to apply online, your school must register with the OUAC. The OUAC will assign you a personal access code in a confidential letter, which will be distributed to you through your secondary school guidance office. Your guidance counsellor will also be informed of your OUAC access code on a confidential basis in order to assist in the application process. You are solely responsible for keeping your access code and other login and registration information confidential and secure. Please notify the OUAC immediately if you suspect any unauthorized use or disclosure of this information.

Explanation of Select Programs

You may apply to as many Ontario universities/programs as you wish; however you are limited to a maximum of three program choices at any one university (including affiliates). Some universities may further limit the number of programs to which you may apply.

Your first three Ontario universities/programs are covered by the CAN\$150 base application fee (CAN\$160 if mailing address is outside of Canada). Any additional university/program choices beyond those three are CAN\$50 per choice.

Program Code	The two- or three-character alphabetic code designating the university/program in which you wish to enrol. Refer to the list of university programs and codes.
University Name	Name of the university/college to which you are applying
Program Title	The Program/Faculty title corresponds to the university program code you have selected.
Co-op	Cooperative Education Program - a work/study arrangement in which a student may earn credit and gain practical work experience as well. If this item is not displayed, it means that Co-op is not available with that particular program.
Subject of Major Interest	The area of specialization/concentration for the program you wish to study. Not all programs require you to indicate a subject of major interest and in some cases there is no list displayed. Where a subject is required, it will be noted. For more information regarding minors and double majors, please contact the university directly.
Expected Date of Enrolment	Fall (September), Winter (January/February), Spring (April/May), Summer (July). Not all entry dates are offered at all universities. Check the appropriate university admission requirements sections to determine which entry dates are available for your selected program(s).
Full-time or Part-time	These refer to the number of courses/credits for which you wish to register; the description of a full or part-time course load varies by university and program.
If you applied before, enter year	The year in which you previously applied to this university. If you have never applied to the university, leave this field blank.
Residence Information Required	You should select "Yes" or "No" as appropriate. Some universities use this information to determine whether to send an application for residence accommodation with the offer of admission and others may require a "Yes" in order to assess an applicant's eligibility for residence.

Explanation of Choice Order

It does not matter how you number your university or program choices on your application. For the most part, whether you list a university or a specific program as first, second, third or higher, is not normally a factor in the universities' admissions decisions. Where there are exceptions to the policy of not using the choice numbering, the universities are to state their policies clearly in their own information literature.

Choice numbering does provide valuable information to the university admission offices. This is particularly true for limited-enrolment programs. Admission officials use this data to project the number of applicants who are likely to accept offers of admission in order that proper resource planning can be done by the university.

Secondary School Application 2016

Explanation of Fees

All fees are non-refundable. Applications will not be forwarded to the universities until full payment has been received by the OUAC. Partial payments will not be processed. Consider your university choices carefully.

Payment is accepted by credit card (VISA, MasterCard or American Express), or by Internet and Telephone Bill Payment Services through selected Canadian banks and credit unions. All payments must be in Canadian funds.

Payment Options

Credit Card (VISA, MasterCard or American Express)

The OUAC accepts VISA, MasterCard and American Express for the payment of application fees. When applying online, please ensure that the credit card payment option has been chosen. If the credit card is declined or invalid, an applicant's application will not be processed and the application will not be forwarded to the universities.

Internet or Telephone Bill Payment Services

If you apply online, you may pay using Internet or Telephone Bill Payment Services through selected Canadian banks and credit unions. This is a payment service offered through your bank's website or their telephone banking department. Please contact your bank for further information.

The OUAC will provide you with your bill payment account number upon submission of your completed application. You will require this account number in order to submit your payment. If you have applied to the OUAC previously, please revise your existing bill payment account number to the new bill payment account number provided. The OUAC's bill payment name is Ontario Universities' Application Centre or an abbreviated version of this name.

Summary of Fees (In CAN dollars)

Base Application Fee - For initial three university/program choices **\$150**

International Service Fee - if mailing address is outside Canada **\$10**

Additional Choice Fee - for each university/program choice beyond the initial three **\$50** (e.g., if you add a fourth and fifth university choice, you must pay an additional \$100).

Note: You may choose a maximum of three programs at any one university (including affiliates). Some universities may further limit the number of programs to which you may apply.

Card Verification Digits (CVD)

Most credit cards now include a 3 or 4 digit verification number, which is not part of the regular credit card number. CVD seeks to ensure that the purchaser has the physical card in hand when placing a phone, mail, or Internet order, and to verify that the card account is legitimate. The number is not contained in the magnetic strip information nor does it appear on sales receipt.

For most cards, the CVD number is a three digit number on the back of the card.

American Express cards have a four digit CVD number on the front, above the credit card number.

Payment Options

- Credit Card (VISA, MasterCard or American Express). Prepaid credit cards and VISA debit cards are not accepted.
